25X1 9. [REDACTED] Robert Hull, Department of State, called on our retirement legislative proposals which were in the Department for comment to the Office of Management and Budget. I explained some of the legislative history of the transfer of Government contributions provision which Hull was unaware of. Hull felt we had a nice tight legislative package and gave every indication that the Department would favorably comment by the 2 August deadline set by the Office of Management and Budget.

25X1 Mr. Hull was particularly interested in what reaction we received on our funding proposals, and I told him as in the past we would keep him advised on developments.

10. [REDACTED] Ed Braswell, Chief of Staff, Senate Armed Services Committee, called to say that Senator Stennis was particularly interested in an unclassified history of the U-2 program to be included in the package of backup material we are providing the Senator for the current military authorization debate.

25X1 Braswell raised as more or less a hypothetical question the matter of who should defend our Laos operation from the policy standpoint if this should come up in the debate. I noted that even though it was an Agency program, since the Agency did not recommend policy, it would hardly be appropriate for the Agency to defend the initial decision. I said this was one we would have to think about.

25X1 11. [REDACTED] During a conversation at a social gathering, discussed with Representative John Moss several matters of Agency interest. See Memo for Record for details.
